

# **OVER \$2,000,000**

**Is the cost of a serious head injury over the lifetime of the injured worker,  
a hardhat costs less than \$20**

**ap Inspections and Environmental Services**  
is presenting a morning of

## **Safety Compliance Manual Overview**

**February 23, 2012  
9am - 12pm  
IAA Barrett Center**

**This Seminar offers something for EVERYONE. Learn how to avoid potential OSHA fines  
and how to prevent injuries plus much, much, more!**

---

**This seminar will cover what should be in a Safety Compliance Manual, including proper record keeping, understanding Haz-Com, Asbestos Management and MSDS sheets. In addition, time will be spent on “fall protection”. With the new RRP/Lead Base Paint Rule in affect, OSHA believes cost and inconvenience are not acceptable reasons to not provide conventional fall protection so OSHA has partnered with the EPA by inspecting job sites for the proper use of Fall Protection. This pertains to any apartment community conducting outdoor painting or doing rehabs and repairs. This also affects any contractor that is doing work on your property.**

**Attend this seminar to learn more about OSHA and the affect their Fall Protection inspections may have on you and your property.**

**ap Inspections and Environmental Services will provide information for discussion as well as hands on training to insure that you are ready to face your job without losing work time due to injuries.**
